On their **Dark Ride Brothers Reloaded Tour** (19.06.-03.07.2019), the boys from the North will come to a number of different cities in Germany, including **Berlin** and **Hamburg**. They will also play their first live performance ever in Switzerland. The climax of the tour is an evening concert at **Altstadtfest Salzgitter** (Saturday, June 29), where **Dark Ride Brothers will be headliner** of a city festival expecting up to 50 000 visitors during the weekend. One focus of the tour will be on DRB’s new album released in April 2019. "Join The Ride" includes the DRB [Spotify hit "Jetplane"](#) (over 125,000 plays) and their song "Supernatural", which has already been played on Yle, Finland's national public service broadcasting company.

German-born founder of the band **Sven Langbein** is looking forward to touring his home country: "The atmosphere at concerts in Germany is always something very special, and I'm glad that our boys will soon have the opportunity to experience it first-hand. It's going to be two very intense weeks, but we've got a professional Dark Ride Crew and a lot of amazing fans in Germany looking forward to our concerts. They are already sharing pictures of their tickets on social media – something I've only seen in connection with really big artists before. It feels incredible and we can't wait to play live for them again soon."

Vesa Winberg, the second founder of Dark Ride Brothers and from Finland, still remembers the last tour very well and his thoughts are already in Berlin: "Finally we come back to Germany! The way we were welcomed last time was simply overwhelming, and this time we have worked especially hard to prepare an even better show for the fantastic German audience."
